

# Psychiatry for GPs study sessions

**Wednesday 4 July 2018 13.00—17.00**  
**Holiday Inn, Handy Cross, High Wycombe HP11 1TL**

## About these sessions:

A half-day session for GPs focused on acute psychiatry presentations in a primary care setting.

The sessions will feature short talks from expert speakers and will focus on presentations encountered regularly by GPs.

**The event has incorporated feedback from previous events and includes the topics below as requested by the GPs who attended.**

- Self harm and adolescents
- Management of complex patients
- Persistent Physical complaints
- Psychological therapies and long term conditions
- Detecting depression and anxiety in older adults
- Dealing with trauma – managing adverse childhood experiences

**Join GP colleagues to hear from expert speakers and join the discussion. Places are likely to fill up fast so please register today at the following link:**
