14-Oct-19	33126	Provision of Medical Centres and Health Practices, Didcot 1..Many of the websites which your response lists: regrettably I seem to be unable to access. Either the “cut & paste” of these sites to your written response were incorrect, or a technical issue for “ordinary folk” like me is blocked? This is reference within your response to my first & second questions of the above FOI request. Please, therefore, provide hard copies of the webpages you have referred, and forward ASAP please. Thanks. 2..Mention is made of a small area of land within Great Western Park. It is known that Taylor Wimpey (T/W) have – historically – suggested this area. However, the planners do not believe it can accommodate what the community need; likewise the Didcot Town Council feel likewise, as I am led to understand, do the local medical practices. Who was/is the officer at OCCG who agreed that this site would be appropriate? When was the understanding with T/W agreed? Would that officer (or successor) be prepared to engage in an informal & without prejudice conversation? Those knowledgeable about the sites history, and what must be provided for the expanding town of Didcot & it’s environs, believe it is “not fit for purpose”. It is too small. I am also aware that T/W have interest from other third parties who wish to acquire said land for another purpose. Comments please. 3...The designated area to the west of GWP, now known as Valley Park, Didcot, has received a residential allocation from the local planning authority, for four thousand, three hundred and fifty dwellings. This could be interpreted into approx. up to 17,000 new patients. (Adults & Children) What is the OCCG’s strategy for this additional growth? Certainly the “postage stamp area” on GWP (see Q2 above) needs revisiting. What amount of S.106 and CIL provision with the OCCG be seeking? 4...How does the above proposals integrate for the new BOB organisation and a planned strategy?	Individual	Primary Care
14-Oct-19	33134	Payments Over £25,000 - I would like to make a FOI request for information on payments over threshold (£25k/£30k) made by NHS Oxfordshire CCG for April 2018 – March 2019 inclusive to be provided as CSV (or Excel) files. If this can be provided as a single file for the whole year that would be preferable, but the standard set of 12 monthly files would suffice. I am aware that these data are available on the NHS Oxfordshire CCG website as PDF files[1], but PDF files are of little analytical use. I hope you will respond positively to this request even though the data are available as PDF files. In that respect I would like to point out that HM Treasury’s guidelines[2] regarding the publication of these data explicitly states that “PDF files should not be used, as their contents cannot be easily re-used” and that “the files are to be uploaded in CSV file format”. 19-Dec-19	33126	Provision of Medical Centres and Health Practices, Didcot 1...Many of the websites which your response lists: regrettably I seem to be unable to access. Either the "cut & paste" of these sites to your written response were incorrect, or a technical issue for "ordinary folk" like me is blocked? This is reference within your response to my first & second questions of the above FOI request. Please, therefore, provide hard copies of the webpages you have referred, and forward ASAP please. Thanks. 2...Mention is made of a small area of land within Great Western Park. It is known that Taylor Wimpey (T/W) have – historically – suggested this area. However, the planners do not believe it can accommodate what the community need; likewise the Didcot Town Council feel likewise, as I am led to understand, do the local medical practices. Who was/is the officer at OCCG who agreed that this site would be appropriate? When was the understanding with T/W agreed? Would that officer (or successor) be prepared to engage in an informal & without prejudice conversation? Those knowledgeable about the sites history, and what must be provided for the expanding town of Didcot & it's environs, believe it is "not fit for purpose". It is too small. I am also aware that T/W have interest from other third parties who wish to acquire said land for another purpose. Comments please. 3...The designated area to the west of GWP, now known as Valley Park, Didcot, has received a residential allocation from the local planning authority, for four thousand, three hundred and fifty dwellings. This could be interpreted into approx. up to 17,000 new patients. (Adults & Children) What is the OCCG's strategy for this additional growth? Certainly the "postage stamp area" on GWP (see Q2 above) needs revisiting. What amount of S.106 and CIL provision with the OCCG be seeking? 4...How does the above proposals integrate for the new BOB organisation and a planned strategy?	Individual	Primary Care
