11-Jun-18	26636	Referrals for Specialist Services - PART 1. I'd like to know whether or not the CCG has a specialist services panel (or equivalent) in place (see 'further clarification' below). PART 2. I'd like to request, for each of the years 2013, 2014, 2015, 2016, and 2017, the number of referrals for specialist services that have been made to the CCG; broken down by specialist service; and also broken down by number successful (or agreed), number unsuccessful (or declined), and number deferred, according to the decisions of the panel. PART 3. I'd like to request, for each of the years 2013, 2014, 2015, 2016, and 2017, the total number of referrals for specialist services that have been made to the CCG broken down by number successful (or agreed), number unsuccessful (or declined), and number deferred ONLY. - IF the information is not held because the CCG does not have a Specialist Services Panel or equivalent, please state so and release the number of referrals only. FURTHER CLARIFICATION Specialist Services Panels are a cost-managing initiative that have been implemented by some CCGs to ensure available resources are used as efficiently as possible. The process is as follows: i. In some areas, when a patient is diagnosed with a treatment that requires a specialist service – for example eating disorder outpatient treatment – the patient cannot be referred straight to the service by the doctor ii. The doctor must make an application (a referral) to the CCG, where the application/referral will be scrutinised by what is known as a 'specialist services panel' iii. The specialist services panel act as a gatekeeper to these services. They can agree, decline or defer the referral. My freedom of information request relates to all of the decisions made by this panel in a set time period for all of these specialist services. Here is a list of all the specialist services available at an example CCG. They will vary according to the CCG, so this should be treated as advisory only: - Memory disorders - Behavioural genetics clinic – autism assessment - Behavioural disorders service – ADHD assessment and treatment - Chronic Fatigue Service - Eating Disorders day care and outpatients - Affective disorders outpatients - Brain injury outpatients - Psychosexual disorders clinic - Anxiety disorders residential unit	Individual	Health Statistics

16-Jul-18	27183	<p>VTE Prevention - QUESTION 1 – QUALITY ASSURANCE VTE prevention has been recognised as a clinical priority for the NHS by the National Quality Board and the NHS Leadership Team. It has been identified as the most important patient safety practice in our hospitals, and VTE-specific indicators feature in both the NHS Outcomes Framework and the CCG Outcomes Indicator Set. The delivery of high quality VTE prevention should automatically underpin the majority of admissions due to medical illness or surgery as part of the providers’ duty to deliver care in a safe environment.</p> <p>Commissioners should ensure that this duty is clearly mandated through local service contracts. a) Has your CCG clearly mandated in its providers’ service contracts that failure to comply with best practice in VTE prevention will result in consequences imposed by your CCG? (Best practice in VTE Prevention as defined by NICE Quality Standard 3: VTE Prevention, NICE Clinical Guideline 92, the VTE risk assessment National Quality Requirement, and NHS Standard Contract Service Condition 22) Yes or No QUESTION 2 – VTE Risk Assessment and Root Cause Analysis The VTE risk assessment National Quality Requirement stipulates that Trusts must risk assess at least 95 per cent of all in patient service users. Until 2016/17, failure to comply with this requirement resulted in a nationally set commissioning sanction. a) Has your CCG agreed a local penalty for failure to comply with the VTE risk assessment National Quality Requirement? Yes or No If yes to the above, please describe the local penalty that has been agreed: b) Between 1 April 2017 and 31 March 2018, has your CCG imposed a penalty on providers that fail to comply with the VTE risk assessment National Quality Requirement? Yes or No If ‘Yes’, please specify which providers your CCG has imposed a penalty on between 1 April 2017 and 31 March 2018 and, if the penalty was a financial sanction, please indicate the value of the sanctions imposed: Furthermore, according to Service Condition 22 of the NHS Standard Contract 2017/19, the provider must: “Perform Root Cause Analysis of all confirmed cases of pulmonary embolism and deep vein thrombosis acquired by Service Users while in hospital (both arising during a current hospital stay and where there is a history of hospital admission within the last 3 months, but not in respect of Service Users admitted to hospital with a confirmed venous thromboembolism but no history of an admission to hospital within the previous 3 months)...” The provider must report the results of those Root Cause Analyses to the co-ordinating commissioner on a monthly basis. c) How do you quality assure that your providers are complying with the national obligation to perform Root Cause Analyses of all confirmed cases of hospital associated thrombosis (HAT)? d) Between 1 April 2017 and 31 March 2018, has your CCG imposed any sanctions, verbal or written warnings on providers for failure to comply with the national obligation to perform Root Cause Analyses of all confirmed cases of HAT? Yes or NO If ‘Yes’, please specify which providers your CCG has imposed sanctions, verbal or written warnings on between 1 April 2017 and 31 March 2018: QUESTION 3 – VTE IN YOUR CCG AREA a) Does your CCG have an estimate of the cost of VTE to the NHS locally (including cost of treatment, hospital bed days, sanctions and any litigation costs) for 2017/18? Yes or No If ‘Yes’, please specify the estimated cost:</p>	MP	SLA & Contracts

26-Nov-18	29028	<p>Gifts Received - 1. Please provide me with your full registers covering all interests of, and gifts, hospitality, or sponsorship received by, staff members, or employees of your organisation, or your organisation, from January 1, 2014 to the present day. This may be one register, list, or document, or it may be split into a number of different registers covering different aspects of the above – regardless of how you store this information, please provide any and all registers covering that time period. For the avoidance of doubt, I am interested in the registers which would include information including – but not limited to: - The sponsorship of educational or other organisational activities, which take place on your organisation’s premises or under the auspices of your organisation, whether in the form of fully/partly funding activities, providing resources such as refreshments or venues, or other forms of support. - The sponsorship of individuals or groups, employed by or affiliated to your organisation, perhaps in terms of fully/partly covering travel costs, admission fees, or other costs to attend conferences, education, training, or any other form of support. - Sponsorship of individuals to gain recognised qualifications – e.g. a grant to support a PHD. - Any paid work undertaken by your staff members or employees for third parties, or any other interests relating to your staff members or employees and third parties. - Any gifts or hospitality provided to individuals or the organisation. - Any awards provided to members of the staff or employees which are accompanied by a financial reward, resources, the covering of travel costs, or other ‘prize’ with monetary value. - And, if held, details of all sponsorship, funding or other support for research, studies, or trials carried out by your organisation, or by individuals at your organisation. If you do not hold information covering all of these areas please send me only those from the areas you do hold information on. Please note that I am not looking for just your most recent registers, but those which cover the entire period back to January 1 2014. This may mean sending me a number of different registers or other documents. I am aware you publish some of this material online, but data from this far back and covering all these areas are not available on your website. There is therefore no argument that this material is already in the public domain. Please note that I would expect each item on each register to include all standard information usually published on such records, such as the date or dates, the individual/team/event at your organisation it was provided to, the approximate or exact value, the reason for accepting, the organisation or individual providing the gift/hospitality/sponsorship/etc, their reason for providing it or what they received in return, and so on. I am not requesting more personal information than is usually disclosed on these records, or for additional information to be added. Where your organisation has been formed by the separation/merger of other organisations, please provide the documentation relating to your organisation from the date it was formed, and for the previous organisations going back to January 1, 2014. If it is easier to provide the information from the financial year 2013/14 to the present day, please feel free to do this instead. 2. Please provide me with a full list of all external events held on your organisation’s premises/ under your organisation’s auspices since January 1, 2014, along with the name of the external organiser of the event, and any sponsors of that event.</p>	Individual	Financial

For each of these 20 occasions please state (i) what the money was spent on and (ii) how much money was spent on it and (iii) what was the outcome the patient was working towards as a result of this spend? To be clear, what I am after is any capital expenditure which is not immediately apparent as of a medical purpose. So a specialist bed would be medical and I would not want to know about it, but a large screen television for a patient with vision problems would be something that I am be interested in, as somebody not familiar with the case would not be able to tell that the set had been bought because of the patient's vision problems. 21-Feb-19	29951	<p>Specialist Mental Health Services for Children aged 2 and under - 1. Do you fund a specialist parent infant service?</p> <p>Please note that Specialist parent-infant services (also known as parent-infant relationship or infant mental health services) work with families with babies and toddlers, where parents or caregivers are experiencing the most severe, complex and/or persistent difficulties in their early relationships with their babies. They offer intensive, specialised work for families whose needs cannot be met by universal services alone. These services are typically multidisciplinary teams of highly skilled professionals with specialist expertise. They might include individual or group work, at home or in community settings. Specialist parent-infant services are different from specialist perinatal mental health services. Parent-infant services focus on the relationship between parent(s) and their babies, primarily to support parents to interact with their babies in a way that protects and promotes the emotional wellbeing and development of the baby. In contrast, perinatal mental health services are specifically for mothers with severe perinatal mental illness and focus on treating the mothers' mental health, although they should also support her relationship with her baby.</p> <p>2.
