06-Jul-17	21535	<p>Mental Health Disorder - Could you please provide your CCG's policy or care pathway for the following scenario in which a local patient and GP is seeking funding: a) The patient concerned has a mental health disorder, namely body dysmorphic disorder / obsessive compulsive disorder. b) The patient is being referred by the GP for a course of out-patient cognitive behaviour therapy which is specific for BDD/ OCD, for which there are NICE guidelines. The CCG has a commissioned provider for referrals through either a local primary care (Improving Access to Psychological Therapies – IAPT) service or for more complex problems with a local community mental health team (CMHT) and psychological therapy service. c) The GP and patient however wish the patient to be referred "out of area" to a provider that has existing NHS contracts with other CCGs. They have no other reason other than that it is the patient's choice to be seen at different service for BDD/ OCD to that provided locally or is already commissioned. The patient and GP are fully aware of their local commissioned service but do not wish to use it. d) The GP believes the referral to be clinically appropriate. The referral would be to another IAPT provider or if the patient has more complex problems to a consultant led team for medication advice and to a more experienced psychologist/ cognitive behaviour therapist. The GP has assessed for risk – the patient does not have any significant risk factors (e.g. a risk of suicide or self-neglect) that require local CMHT involvement. Neither does the patient need care integrated with social services nor inpatient care. My questions for the FOI request all relate to the CCG's policy documents or agreed care pathway in the above scenario. 1) Can the GP refer direct to an out of area provider? If not, what is the pathway for such referrals? For example, must such referrals go to a clinical triage service to determine it is appropriate to refer to another provider? Must the referral go first to a panel to determine exceptionality for the patient not to be treated locally? If yes, what are the criteria used in the scenario above for the patient to be referred out of area? When does the CCG consider the "exceptionality" issue applies for a referral out of area? For example, must the patient have exhausted or tried treatment in local services? 2) If the patient can be referred direct for an assessment to another provider and the provider seeks authorization for funding, what is the pathway for such referrals – for example is the request taken to a special panel or dealt with by a commissioner? As in question (1) does the panel or commissioner use any specific criteria to agree to fund the assessment of the patient? 3) If a patient is assessed by another provider and found suitable for treatment, must a further application for funding be made for treatment? As in question (1) does the panel or commissioner use any criteria to agree to fund the patient's treatment or suggest that they are treated locally? When you comment on these questions, please provide any relevant policy documents or care pathways that relate to each of these scenarios.</p>	Charity	Specific Treatments

05-Jul-17	21632	Financial Data Access - I am told by staff at the John Radcliffe that GP's are not referring individuals for knee problems and other debilitating conditions when they should, presumably for cost reasons. Thus I would estimate many patients suffering considerably and literally drugged rather than investigated and treated properly and returned to health. Is this a directive from OCCG or do the GP's decide this for themselves not to treat certain individuals, presumably for reasons of profit?. As I am sure that somewhere you must have some sort of cost ledger, how do I get FOI access to your accounts systems and those of GP practices. How do you measure cost effectiveness of health service(Oops, I nearly included the word "Care" then) providers as these are private sector companies that exist for profit?. 14-Aug-17	22090	Decision Support Tool (DST) - Request 1. Can you please supply me with the template DST used by multi-disciplinary teams (MDT) in your own CCG when recording assessments for CHC eligibility? If it is identical in absolutely every respect to the original DST provided on the GOV.UK website (https://www.gov.uk/government/publicatio... with no CCG logo or other additions, then please confirm that this is the case. Request 2 If multi-disciplinary teams in your CCG have any discretion about which version of the DST may be used in different settings (such as home, hospital or care home), please advise on the criteria for using the different versions. If they do not have any discretion to use a different version of the DST supplied in request 1, please confirm that this is the case. Request 3. I would like also the template version of the DST which is provided to applicants and their families when the outcome of the assessment is made known to them, if this is in any way amended or edited from the DST requested above. If the version of the DST given to the applicant or their family (when the outcome of the CHC assessment is made known to them) is exactly the same in every respect to the one referred to in request 1, please confirm that this is the case. Request 4 . When the applicant or the family is told the outcome of the assessment for CHC funding, are they automatically also sent a copy of the DST? If the DST is not routinely provided, are applicants and their families told that the DST is available to them on request or is the wording phrased without a specific reference to the actual Decision Support Tool? I am seeking the materials that are actually used by your CCG, which may be slightly different from the national tools. Request 5. 11-Oct-17	22726	<p>Wallingford Physio Therapy Department - • what contingency plans the Trust put in place to ensure continuity of patient care during the transition from NHS to HealthShare Ltd? • how many patients referred for physiotherapy of MSK assessments have been denied access to services as a result of the transfer of services • how much money the Trust has saved by not providing MSK/Physiotherapy services during the transition period • how the lack of services has impacted on waiting times for patients Secondly and regards the response from your FOI team, I have the following questions which I hope someone can answer. 1. The business case was approved in 2015 and subject to an evaluation panel. Could I ask: o who were the 2 x patient representatives (name and address of organisation) o how GP practices were consulted and notified of the intended change and of the period of disruption o what arrangements the Trust has made to ensure that patients in my position are offered treatment - no-one has actually contacted me. 2. Savings range from £984,000 to £1639000 over the period of the contract. That is quite some variance. Could I please ask: o how the estimated cost savings were reached and why such a wide variance? o what is the length of the contract with HealthShare? 3. Personal data processing: Could I please ask: o for a copy of the data transfer agreement o the precise categories of personal data being transferred to Healthshare and the historic nature of the data (for example, I have been a patient of the physio department at Wallingford Hospital and the JR on a number of occasions - will my data be transferred?) o a copy of the patient letter o the precise legal basis under the Data Protection Act upon which data are transferred on an opt-out basis? o what is considered a 'relevant patient' 4. Data Protection Act 1998. o The Trust claims that HealthShare will be both a data processor and data controller. The reply is ambiguous. Could I please ask: &#61607; when will Healthshare be a data processor and when will it be a data controller under the terms of the contract and what personal data will be processed as a data processor and data controller? &#61607; whether the Trust undertook a privacy impact assessment and audit of Healthshare. If these were carried out could I please ask for a copy of the these. If they were not undertaken, the reasons for not doing so? &#61607; what measures the Trust is taking to ensure the services and processing of personal data made under the contract, comply with the requirements of the General Data Protection Regulation and which will replace the Data Protection Act on the 25 May 2018. 5. Could I please also ask someone to confirm: o the annual salary of the CEO of the Trust for each of the past five years o the amount of any bonus paid to the CEO of the Trust for each of the past five years o the financial equivalent of any vehicle or transport allowance for the CEO of the Trust for each of the past five years o whether the CEO of the Trust receives private healthcare benefit.</p>	Individual	Misc.

17-Oct-17	22821	Autism Diagnoses - It would be useful to receive this information for the past 5 years - however, if for some reason information over a different time period is given (e.g. if an assessment centre opened more recently than that) the information would still be useful for my analysis, as long as the time period it relates to is specified. 1. Names of all assessment centres to which adults in the CCG are referred for autism diagnostic assessments. Firstly, I would like the names of all centres to which adult patients under this CCG are referred for NHS assessment and diagnosis of autism (including both autism with intellectual disability and "high functioning" autism or Asperger Syndrome). 2. 2. Number of patients of each gender who were referred to each centre for an autism assessment. Secondly, I am specifically interested in the number of women and the number of men who were referred to each diagnostic centre. However, if there are any additional patients who identify as intersex, non-binary gender or non-recorded gender, I would also like this information. 3. 3. Number of patients of each gender who received a diagnosis of any form of autism or autism spectrum disorder from each centre. Finally, I would like to know how many patients of each gender were diagnosed with any autism spectrum condition. If information about sub-categories is available (e.g. how many men and women were diagnosed with Asperger's as opposed to other autism spectrum conditions) this would be useful but is not required. 30-Oct-17	23014	GP Funding - The GPFV set out that CCGs should provide £171 million of practice transformational support to general practice. This investment is designed to be used to stimulate development of at scale providers for improved access, stimulate implementation of the 10 high impact actions to free up GP time, and secure sustainability of general practice. As set out in the NHS Operating Planning and Contracting Guidance 2017-2019, CCGs will need to find this funding from within NHS England allocations for CCG core services. CCGs should plan to spend £3 per head as a one-off non-recurrent investment commencing in 2017/18. This could for example be £3 split between 2017/18 and 2018/19 (e.g. £1.50 in 2017/18 and £1.50 in 2018/19) or £3 in one of these years (i.e. either £3 in 2017/18 or £3 in 2018/19). 1.
