QI module documentation: End of life care

It is anticipated that the responses noted here should total approx. 1 A4 side in Arial font size 11.

Practice name and ODS code
Diagnosing the issues
What issues did the practice identify with current end of life care?
What SMART outcomes did the practice set for each measure?
Results
What did the practice achieve?
What changes will/ have been embedded into practice systems to ensure improved quality end of life care in the future?
How did the GP network peer support meetings influence the practice's QI plans and understanding of end of life care?
Please attach the results of both end of life care audits (as appendices), including identified SMART outcomes for each objective.
