Brief information items for practices

1. FOR ACTION: Hypertension / AF audit

NHS England provided £56K funding to improve the prevalence of Hypertension/AF through code cleansing. OCCG have agreed with LMC the following specification for Oxfordshire practices:

<https://www.oxfordshireccg.nhs.uk/professional-resources/primary-care-services.htm>

Practices who choose to participate will be paid 7.4p per patient on their list (as at 31/3/19). EMIS practices searches are provided, Vision practices will need to write their own (see appendix 1). There is no sign up but practices need to import and run the searches and then provide a screenshot of the numbers of patients found. Queries to occg.primarycarecontracting@nhs.net.

2. UPDATE Rapid Access chest pain clinic pathway:

Clarification of the referral routes into the rapid access chest pain clinic (RACPC). The [attached pathway](#), supported by OCCG and LMC, confirms that secondary care will no longer refer patients back to primary care to refer on to the RACPC.
