| Venue/time: Hampden House, Monument Park, Warpsgrove Lane, Chalgrove OX44 7RW 13.00-15.00 |                      |  |

Brief information items for practices (recently featured in GP Bulletin)

## **IMPORTANT - All Paperless Referrals from October 2018:**

There is a national requirement that from October 2018 all GP referrals to consultant led first outpatient appointments must be made via the NHS e-Referral System (e-RS). If a referral does not have a UBRN number then the provider will not be paid. In line with this OUHT will be going Paperless and only accepting eRS referrals for GP to consultant led clinics. Any referrals received after 1/10/2018 not on eRS will be returned to practices to

put on the electronic system. In line with this the new GP contract will make use of eRS a requirement.

To reduce the risk for OUHT, a transition period will start where GP practices will be advised to start making sure all referrals are made by eRS with a proposed switch off date for non eRS referrals of 1/9/2018 or earlier if needed. More details will follow in the next few weeks. Please can you alert GPs and relevant administrative staff of this change.

Any queries to OCCG.plannedcare@nhs.net

## Safeguarding Conference Report for GP – new proforma

The OCCG safeguarding team, in conjunction with children's social care, has produced an EMIS proforma to generate reports for case conferences. It has been released in the latest proforma update in response to GP requests for a self-populating form and will be available through your EMIS systems (unfortunately not Vision INPS). When all proformas for a family have been generated, they are attached to a secure email and sent to the case conference administrator address, as detailed on the proforma. If you prefer to send a letter containing the information, that is also acceptable to children's social care. Vision practices will need to send a letter.

For full details, please see the instructions.

If you have any questions or feedback please email: occg.gpproformas@nhs.net

## **Publicity resources for the Over the Counter Medicines Campaign**

Please share with your patients the resources which OCCG has made available for the Over the Counter Medicines Campaign. These include:

- slides for practice TV screens
- patient leaflet.
- poster If you require printed posters please email cscsu.talkinghealth@nhs.net.
