Paper Type	<ul style="list-style-type: none"> • For Assurance
Action Required	Committee Members are asked to: <ul style="list-style-type: none"> • Note the update on the risk register

Executive Summary

Historically each CCG has maintained its own risk register for primary care and presented it to its own Primary Care Commissioning Committees. These have been in many different formats and levels of detail.

For the Primary Care Commissioning Committee in Common the first step has been to consolidate a high level risk register for the Committees in Common which is presented here

There is an expectation that this early format will move into the BOB ICB format when the format is agreed.
