Issue ~~2~~⁴: **Making Best Use of Community Resources**

Table 1:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Use of community spaces to outsource Health services, 'pop up services'	available rooms in community venues.
2	'Walk in' accessible clinics in Town centres to increase footfall.	
3	Collaboration on all levels	
4	Use of Technology - Skype appointments etc	
5	Mobile facilities to access villages Dental, Podiatry, Chemo

Issue ⁴ 3: **Travel and Transport**

Table 1:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Outreach O.P.D.s X ray Chemotherapy Dialysis	Save transport Provide local facilities
2	Transport for staff to J.R. Electronic	Reduce Parking Problems.
3	Mobile facilities - Dentistry / Podiatry	↑ local access to services
4	↑ technology Electronic remote consultations	↓ travel

Issue 3: **Travel and Transport**

Table 1:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Routine appointments in the community.	
2	Technology - use video with professionals so can be in different places.	
3	the A+E and Maternity in locality unit	with increase in housing + population, getting to Major hospitals is hard and gets even harder in future years.
4	Local transport improvements from villages, and around town.	
5	improve car parking at the JR. Build Multi story. - Give access to the disabled spaces outside the women's centre to disabled people. Car park not letting people in, but spaces

Issue 3:

Travel and Transport

Table 2:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Less demand for travel by having more Wantage based out patient services.	Less travel, less stress.
2	More community buses to include stops at Madly Way	Easier access to services.
3		
4

Issue ~~2~~: **Travel and Transport**

Table 2:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	BUS SERVICES MORE FREQUENT TO ALL EACH VILLAGE AND ON SPECIFIC DAYS eg. CHALLOW on a Tuesday.	→ THEN MATCH GIP APPTS to those days. E.g. someone from Challow calls GP practice and needs non-urgent appt. and they does not have a car/needs transport. Patient advised that if they have appt on a Tuesday, more frequent bus service available and more likely to be able to access appt. with spending lots on taxis.
2		→ Also in this example, residents in Challow know that Tuesday is a better day to get into Wantage which may mean more people go at once; people get to know one another → reduction in isolation/loneliness.

Issue ~~3~~: Travel and Transport

Table 2:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Park + Ride near health centre would improve access to health centre and free up parking in Wantage	
2	figure of 8 bus route round Crose + Wantage would serve medical centre frequently.	
3	"pick me up" bus service	
4

Table 4: ✓

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	(Adequate) Nearby Satellite Parking for JR with frequent (at least 4/hr) shuttle bus including wheelchair access.	Increase access, improve patient experience
2	Reduce demand for transport by offering flexible modes of service delivery - video consults Telephone consults, web-based programs -	Reduce patient need to travel.
3	Room "Dial A Ride" style access to hospital. (with wheelchair access)	Pick up from Home
4	Providing services locally where possible using visiting consulting space.	Reduce need for travel
5	2. Small Number of (AM/PM) busses / day direct trip from Wantage/Grove to JR	Ease of access for

Table 4:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	link to the 'Transport' agenda at OCC, as local councillor leading on this with some direct dialogue, briefing & agreement of outcomes	
2	- so include local travel issues alongside their agenda of <ul style="list-style-type: none"> parking hubs, charge to park & ride congestion issues + carbon emission reductions 	
3	<ul style="list-style-type: none"> charges to roads A38 etc climate agenda. To be a partner in any population health	(link to asthma etc)
4	needs focus link to ST06 monies.

Issue 3: **Travel and Transport**

Table 4:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Not all public buses come around the villages. Car is the guide way to Mably Way Health Centre	Confer with bus company, health officials need to talk
2		
3	PARKING at J.R. All over 2 days = 6 hrs at two appts. Surely they could have linked to appts.	A provision to park by the appointment referrer. As they check into database give car number, which is fed into parking.
4	Bus services need to be considered a health necessary service to the community. New homes more environment travel.	developers need to contribute to buses ↙

Issue ~~3~~: **Travel and Transport**

Table 6:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Make sure that all treatment & testing is done where that is accessible to the patient.	Testing carried out in Bicester - Results took over 8 months to come through.
2	Difficult to get to the JR/Churwell by bus	
3	Too many cars go to JR/Churwell	not enough parking spaces
4	it is 25 miles round trip to JR/Churwell (could take 3 hrs there and back not including appointments).	Open Waitage hospital to be used as clinic space.
5	there is not enough public transport around Grove and none in the villages.	put on more buses.

Issue ~~3~~: **4** **Travel and Transport**

Table 6:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Hospital parking & transport	<ul style="list-style-type: none"> - have \$ no bus service from many of the villages - cars parking is so hard. - can we reduce the number of
2	Within OX12 - data saying 10-15 mins to Health centre by public transport is incorrect.	<ul style="list-style-type: none"> cars going in.... park + ride for staff etc. ≠ - need to think creatively about using our cars.
3	Clinics - eg Flu jabs	<ul style="list-style-type: none"> - could this be out in a village hall? - could villages then organise an event around this?
4	Cycling - needs to be a priority to create cycle tracks	<ul style="list-style-type: none"> - main roads are not cycle friendly - round the villages its OK
5	Parking in Wantage is limited considering the main way of accessing any services	<ul style="list-style-type: none"> - currently v. limited & not convenient to services.

Further comments ^{in Wantage} by Car.

6. Mobility scooters

- along the lines of Boni's bikes - hired at recharging health centre points at sports centre etc.

Issue 3: Travel and Transport

Table 6:

Please list your top 5 Solutions to this Issue in order of importance under the 'Solution' column and a short rationale for your choice under the 'Rationale' column.

	Solution	Rationale
1	Part of ride from Redbridge	Runs from Thornhill now, continue to Redbridge then back again
2	Staff at JR use Buses	Release car parking for patients
3	Use "neighbors" volunteers to drive you	Known person easy
4	Clinics in villages/ Clinics in Wantage	Not have to use public transport/cars to access services.
5	Encourage cycling and walking	Schools - less/no buses
