# Talking Health

**Talking Health** is Oxfordshire Clinical Commissioning Group's online public involvement service. You can register by post or online.

- You can tell us exactly what you are interested in, and
- How you want to be involved

You can help us to develop health services that are right for you by telling us what you think. Your opinions, experience and feedback make a difference to the healthcare services that are provided across the county.

Oxfordshire CCG wants to keep patients and the public informed of what is happening on a regular basis.
