Time in Treatment Range	31/03/20	Price increase per patient per quarter for patients on warfarin and seen by the practice phlebotomist. Price increase for home visits and TTR payment. Contact for queries changed.

**\*Important note:** SNOMED CT is the clinical terminology chosen to replace Read codes within the NHS. Coded information that is currently received from GP systems is as Read codes; this will change to SNOMED CT following implementation which is now scheduled for later in 2019 in England. Snomed codes will be confirmed at a later date, the specifications currently show Read codes.
