Aims for today

1. Background
2. Practical next steps
3. Questions
4. Time with your proposed PCN
5. More questions and discussion
6. Any issues? What further support?

- Don't panic
- This is a 5 year plan
- CCG and LMC are here to guide you through it

Context

- The NHS Long Term Plan
- The GP contract reform
- Primary Care Networks (PCNs) are a key part

What is a primary care network?

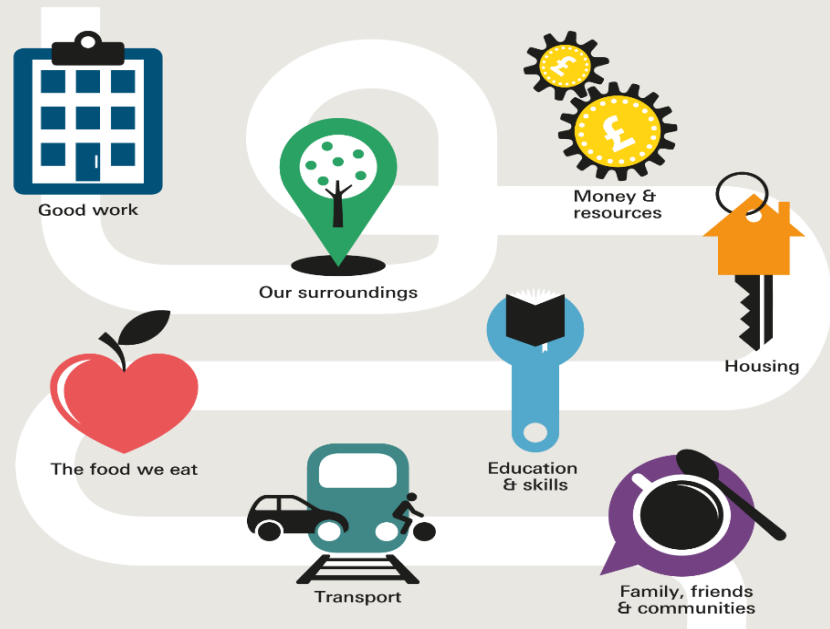

What makes us healthy?

AS LITTLE AS

10% of a population's health and wellbeing is linked to access to health care.

We need to look at the bigger picture:

But the picture isn't the same for everyone.

The healthy life expectancy gap between the most and least deprived areas in the UK is: **19** YEARS

The bigger vision

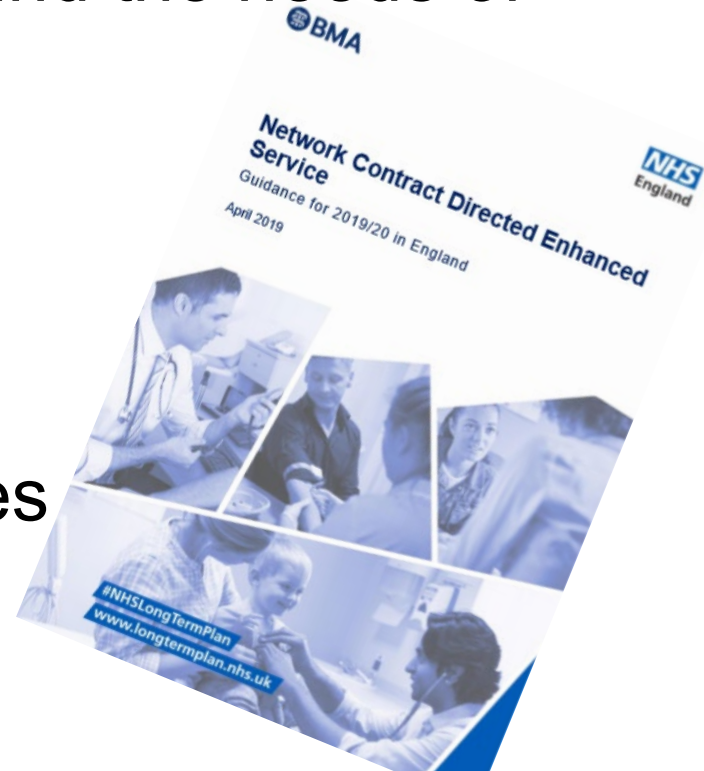

The greatest influences on people's health and wellbeing come from outside direct healthcare provision

Could PCNs extend wider?

McGovern L, Miller G, Hughes-Cromwick P. Health Policy Brief: The relative contribution of multiple determinants to health outcomes. *Health Affairs*. 21 August 2014. Available from: http://healthaffairs.org/healthpolicybriefs/brief_pdfs/healthpolicybrief_123.pdf

What are PCNs designed to do?

1. Use data to design services around the needs of the population
2. Proactive, coordinated care
Prevention
Health inequalities
3. Connect patients to other services (e.g. health, care or third sector)
4. Support the whole system

Why should we sign up?

- PCNs shown to be successful elsewhere
- Funding increasingly channelled into PCNs
- Lose out on funding if opt out
- Greater influence

Potential challenges

- **New way of working**
Doing a lot for the first time
- **Relationships** and possible disputes
- **Clinical Director** responsibilities
- **Management and admin** capacity
- **Data**
- **Workforce** - recruiting, supervising, liabilities, costs
- **Legal and tax advice**

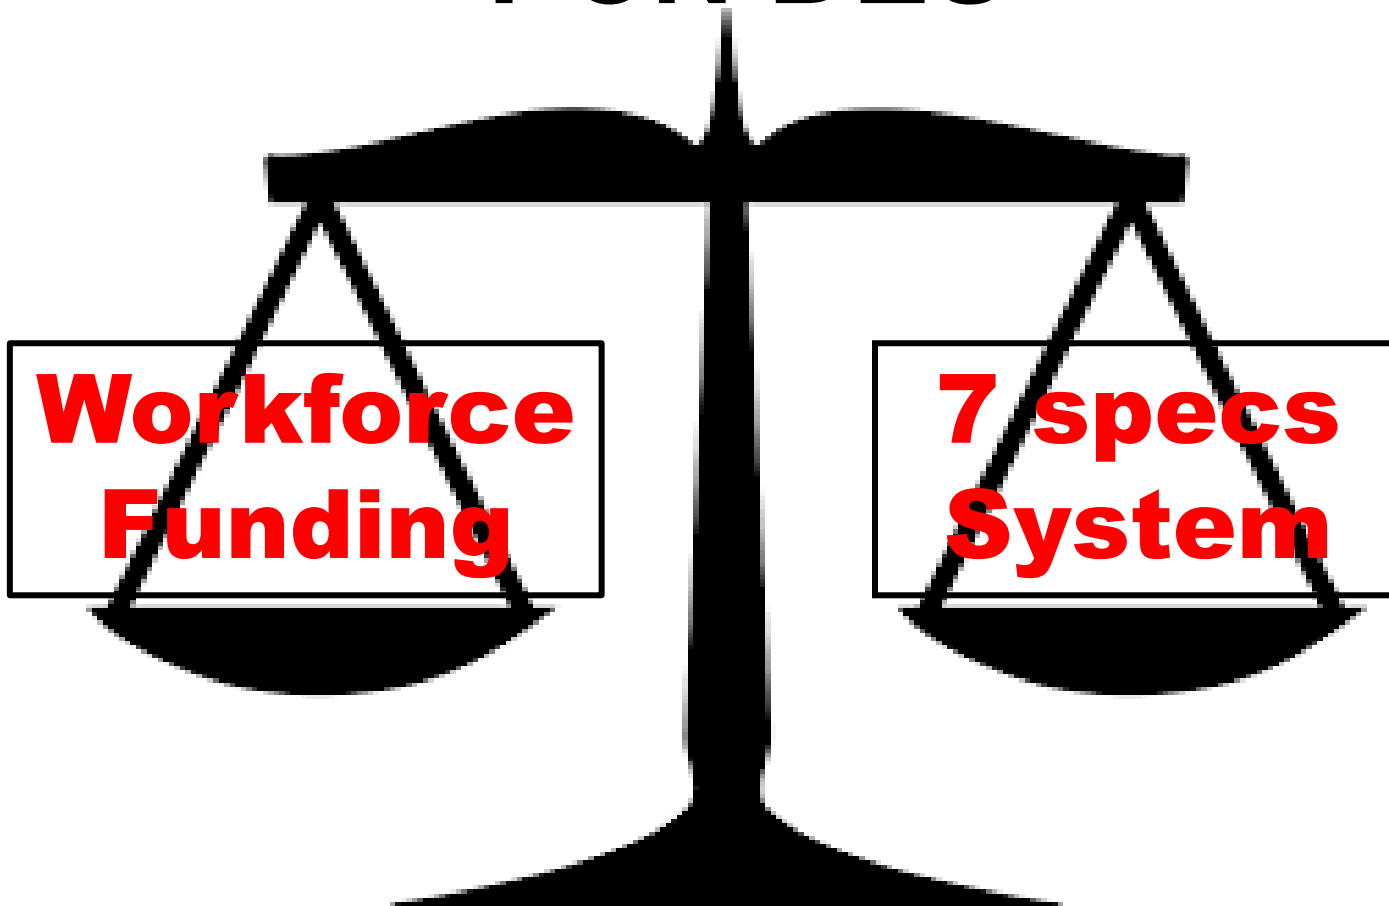

How are we going to get there?

- ‘Ground-up’ approach
- CCG and LMC to support practices
- **Network Contract DES** - vehicle for general practice taking a leading role in every PCN

PCN DES

1) Additional roles

Role	AfC band	Percentage reimbursement (of actual salary inclusive of employer on-costs)	Maximum reimbursable amount ³⁹ £
Clinical pharmacist	7-8a	70%	37,810
Social prescribing link worker	Up to 5	100%	34,113

- Additionality rule
- New roles added from 20/21
- From 20/21 reimbursable rate calculated based on weighted population

2) Funding

Practice Support	Practice participation (£1.76/weighted pt/year direct to practices)
Network Support	<ul style="list-style-type: none">• Core PCN funding (£1.50/head for 19/20)• Clinical Director (£0.51/head for 19/20 then £0.69/head)
Access	<ul style="list-style-type: none">• Extended hours DES (£1.099/head for 19/20 then £1.45/head)• Improved access (GPAF) (~£6/head) from 2021
Investment and Impact Fund	<ul style="list-style-type: none">• Further details awaited

And in return...

- Who will receive funding on behalf of the PCN?
- How will you decide what goes into your network agreement (decision-making processes, employment model, accountability)?
- Any issues that need to be resolved before 15th May?
